WebSite Monitoring (Allows Access to Approved WebSites)	✓	X	X	✓
Proactive Threat Management (Intrusion Prevention and Detection, E-mail Viruses and Attachments)	✓	X	X	X

RADIANT SECURITY SERVICES

Protecting you and your customers

Radiant Security Services is a new offering of products and services that goes beyond mere compliance with current data security standards by providing critical proactive management tools and a threat response network for your stores and restaurants.

It's not simply about the security of your business. It's about maintaining the relationships that you have developed with your customers. It's about protecting consumer trust.
