

*“After undergoing a breach at the restaurant concept I owned previously in Atlanta, GA, I now know that my restaurant’s network security is of the utmost importance. The breach resulted in us being depleted of **\$42,000 in fines and penalties** and ultimately forced us to close our doors. I refuse to see the same thing happen twice.*

As a restaurant operator, I have a lot of things to deal with on a daily basis. I do not have the time to keep an eye on when my anti-virus is out of date. When you have a security services provider, they are able to report on the specific problems immediately. For me, the primary benefit of outsourcing security services is gaining the peace of mind that I have experts watching out for the security of my business 24/7.”

Brett Randle, CEO
Soulman’s BBQ
Dallas, TX

Since 1974, Soulman’s has been dedicated to serving delicious Texas style Bar-B-Que with great prices in the Dallas, Texas area.
